

# Columbia University Department of Public Safety

## Emergency Response Protocols Medical Center Campus

# EMERGENCY RESPONSE PROTOCOLS

## COLUMBIA UNIVERSITY

### I. Introduction

The purpose of this document is to provide members of the Columbia Community with useful information regarding what to do in the case of emergencies that may occur on campus. These protocols are intended to safeguard human life and to preserve property in the event of fire or other emergency.

The document is organized into a series of incident specific sections, each of which sets forth specific recommendations for the particular emergencies, and can be used in conjunction with the Emergency Evacuation Plan for your building.

<b>FIRE</b> .....	Pages 3-5
<b>MEDICAL EMERGENCY</b> .....	Page 6
<b>ACTIVE SHOOTER</b> .....	Page 7
<b>MAJOR WATER LEAK/FLOOD</b> .....	Page 8
<b>GAS LEAK</b> .....	Page 9
<b>POWER OUTAGE</b> .....	Page 10
<b>BOMB THREAT/SUSPICIOUS PACKAGE</b> .....	Pages 11-12
<b>HAZARDOUS MATERIALS</b> .....	Page 13
<b>SEVERE WEATHER</b> .....	Pages 14-15
<b>CIVIL DISTURBANCE/DEMONSTRATION</b> .....	Page 16
<b>APPENDIX I - IMPORTANT PHONE NUMBERS</b> .....	Page 17
<b>APPENDIX II - EMERGENCY PROCEDURES POSTER</b> .....	Page 18

## II. Fire

### Be Prepared

- Know the location of the nearest fire alarm pull box.
- Know the location of at least two exits from your work place.
- Count the doors or work spaces between you and the exit. In a power failure or smoke condition it may be necessary to evacuate in the dark.
- Be prepared to evacuate when the fire alarm sounds. If you are not in an area of fire or smoke, remain where you are and be guided by Fire Safety, Public Safety, or overhead PA announcements.

### Immediate Actions

- Remain calm and refer to R.A.C.E. - **R**escue, **A**larm, **C**onfine, and **E**xtinguish.
- Issue a warning to other occupants, and activate the building alarm.
- Once safely out of harm's way, notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979; give the location and description of the fire.
- If conditions allow, provide assistance to other individuals in your immediate area. Attempt rescue efforts only if there is no immediate danger to yourself.
- When possible, provide assistance to persons with disabilities. Notify the Department of Public Safety if persons with disabilities are in the area and may need to be relocated.
- If the fire is small, and if you have had training, use the proper type of fire extinguisher to control and extinguish the fire (refer to P.A.S.S. on page 6). Do this only after the evacuation has started and the Department of Public Safety has been notified (by activating the fire alarm or by calling (212) 305-7979 or campus phone extension 305-7979).
- If evacuating, feel the door prior to opening, if cool, crack door open to look for fire, smoke or other signs of danger.
- If the corridor is passable, stay low to the floor, travel to the nearest exit and leave the building.
- Close all doors as you leave, take your keys with you so you can return if you encounter untenable conditions.
- Use the stairs; **NEVER** use the elevator when exiting the building.
- Once outside, proceed to your department's designated gathering point at least 500 feet away from affected buildings. Stay there. Perform a roll call to ensure everyone is accounted for.
- Keep streets, fire lanes, hydrant areas, and walkways clear for emergency vehicles and workers.
- Notify the Department of Public Safety or responding emergency workers of any injured or trapped persons remaining in your building.
- If requested, assist staff of the Department of Public Safety as necessary.
- Do not return to an evacuated building until given the "all clear" by Public Safety staff.

### **If Trapped In a Building**

- Remain calm.
- Call (212) 305-7979 or campus phone extension 305-7979 for the Department of Public Safety and provide your name, phone number, and location and condition preventing you from leaving.
- Open, never break a window and hang a piece of clothing outside to mark your whereabouts for rescue workers.
- Stay at window breathing the fresh air as it enters.
- If smoke enters the window, close the window and stay close to the floor where the air is less contaminated with smoke.
- Periodically call-out loudly for help so rescue workers can locate you.
- Avoid flammable liquids, compressed gas cylinders, etc. that may be in your room.
- Close door and seal cracks to prevent smoke from entering. If possible, open window at top and bottom (never break the window).

### **Procedures to Follow if a Person's Clothing Catches Fire**

If a person's clothing is on fire, he/she must not be allowed to run, as this will fan the flames and cause a more serious burn.

**Remember! STOP DROP and ROLL.** Clothing fires must be extinguished immediately in order to minimize skin burns.

- If necessary, knock the person to the floor and roll them over to smother the flames.
- If available, place the person under a shower, utilize a hose, use a fire extinguisher, or wrap him/her in a blanket or whatever is available to smother the flames.
- If possible, place clean wet cloth on burned areas, wrap the person warmly to avoid shock, and secure medical assistance by immediately calling the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.

### **Persons with Disabilities**

- It is suggested that individuals who use wheelchairs or who have a mobility-related disability prepare for an emergency ahead of time by instructing coworkers or fellow students on how to assist in an emergency.
- During an emergency evacuation due to fire, building elevators should not be used.
- Evacuation may not always be necessary or advisable. If persons with mobility-related disabilities cannot be transported from the building without using an elevator, assist persons with disabilities to the nearest fire stairway landing on each floor of the building. Immediately notify the Department of Public Safety staff or other rescue workers on-scene upon the arrival of persons with disabilities to the rescue area.

### Using a Fire Extinguisher

- Activate the alarm, and report the fire to the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979, before attempting to extinguish the fire.
- Use an extinguisher only if you have been trained to do so. Improper use of an extinguisher can increase the hazard.
- If you have any doubt about your ability to fight the fire, exit immediately.
- If you decide to use a fire extinguisher, place yourself between the fire and your exit from the area.
- To use the fire extinguisher, follow the PASS method:

**PULL** the pin. This will break the tamper seal if a seal is applied.

**AIM** low, pointing the extinguisher nozzle (or the horn or hose) at the base of the fire.

**SQUEEZE** the handle to release the extinguishing agent.

**SWEEP** from side to side at the base of the fire until the fire is out. Wait in the area. If the fire Re-ignites, repeat the steps above.

- If one extinguisher is used and the fire is not extinguished, evacuate and close doors behind you as you exit.
- Portable fire extinguishers are located throughout the building. To report a discharged or damaged fire extinguisher, contact the Facilities Operations Call Center at (212) 305-4357 or campus phone extension 305-4357.

### **P.A.S.S.**

**PULL - AIM - SQUEEZE - SWEEP**

### III. Medical Emergency

- When encountering a person in need of medical attention, immediately notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979. Provide the Department of Public Safety with your name, exact location and information regarding the nature and magnitude of the medical emergency. If trained, provide appropriate first aid while awaiting the arrival of emergency responders. Remain with the person(s) requiring medical attention until assistance arrives.

## IV. Active Shooter Incident

In the unlikely event that an Active Shooter Incident should occur on campus, the University may utilize multiple notification methods such as text messaging, CU campus wide e-mail, or building PA systems, to alert CU community of an active shooting incident. If an event occurs, you should be prepared to Run, Hide, Fight.

### Immediate Actions

- **RUN.** Evacuate the premises if possible; leave belongings behind. If event occurs **outside**, take immediate cover outdoors away from the active shooter(s).
- Help others escape if possible, but do not wait if they are hesitant.
- Prevent others from entering area and contact authorities when safe and able to do so.

### If Escape is Not Possible

- **HIDE.** If evacuation is not possible, find a place to **hide** where the active shooter is less likely to find you and where you won't limit your movement.
- Lock and barricade doors.
- Take adequate cover/protection, conceal yourself behind concrete walls, thick desks, or filing cabinets.
- Turn off lights, close blinds, and block windows.
- Silence cell phones, turn off radios and computers.
- Keep occupants calm, quiet, and out of sight.
- Stay low – on the floor and call authorities if able.

### If Hiding is Not Possible

- **FIGHT.** Be prepared to **fight** as aggressively as you can; your life depends on it.
- Enlist others to join you.
- Attempt to incapacitate the shooter using whatever weapons are available. Improvise, using chairs, waste baskets, umbrellas, and paper weights etc. to use against the active shooter.

### Police Response

- Remain calm and follow officers' instructions.
- The officers' objective is to engage and neutralize the shooter(s) immediately.
- Put down any items in your hands and raise your hands and spread your fingers.
- Keep hands visible and avoid pointing, screaming and yelling.
- When shooter is neutralized, responders will facilitate follow-up medical care, interviews, counseling, and will begin an investigation.

### Contact Authorities

Call 911 for Police and (212) 305-7979 or campus phone extension 305-7979 for the Department of Public Safety.

### What to Report

Report your specific location – CU, building name and room number.

Number of persons at your specific location and injuries – number and type of injuries.

Assailant(s) location, number of assailants, race/gender, physical description, clothing description, type and number of weapons, backpack, shooter's identity, if known, whether separate explosions occurred other than gun fire.

## V. Major Water Leak/Flood

### **Identify the Source**

- If you know the source of the water and are confident of your abilities to stop it (i.e. unclog a drain, turn off water, etc.), do so cautiously.

### **Protect from Water Damage**

- Cover large objects with plastic sheeting. Carefully remove small or light objects out of the emergency area.

### **Provide Assistance**

- Provide assistance to persons with mobility related disabilities. Notify the Department of Public Safety if persons with mobility related disabilities are in the area and may need to be relocated.
- Provide assistance to other individuals in your immediate area.

### **Use Caution**

- If there are electrical appliances or electrical outlets near the leak, use extreme caution.
- If possible, turn off electrical circuit breakers to the area.
- Avoid standing in flood water, as it can carry electrical current.
- If there is any possible danger, evacuate the area.
- Flood water can be contaminated. Avoid contact with sewer water, as it poses a potential health risk.
- Avoid walking through flooded areas. As few as six inches of moving water can knock a person down.

### **Contact Authorities**

Call (212) 305-7979 or campus phone extension 305-7979 for the Department of Public Safety.

Call (212) 305-4357 or campus phone extension 305-4357 for the Facilities Operations Call Center

### **What to Report**

Report your name, phone number, and the location and severity of the leak or flood.

Indicate whether art collections, books, or other valuables are involved or are in imminent danger.

Report any persons with disabilities who are in the area and may need to be relocated.

# VI. Gas Leak

## General Info about Gas

- Natural gas, of the type piped into home heating and stove systems, is lighter than air and will rise.
- Natural gas is odorless. To make it detectable, an odorant similar to the odor of rotten eggs is added. The odorant is noticeable when there is as little as 1% gas in the air.
- Natural gas becomes flammable and will ignite if as little as between 5% and 15% gas is in the air and an ignition source is present. Ignition sources include pilot lights, sparks, matches, electrical switches, static electricity, and motors.
- Laboratory cylinders may contain a variety of gases, including toxic, explosive or asphyxiating gases, as well as non-hazardous materials, and should only be handled by trained personnel.
- Liquefied petroleum gases (e.g., bottled propane) are heavier than air and will travel along the ground.

## Contact Authorities

If a gas leak of any type is suspected, call the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979 from a safe, unaffected area.

## What to Do

- Remain calm. Shut off the source of the gas leak if immediately apparent, if it can be easily corrected (e.g., Bunsen burner, kitchen appliance), and if you have the knowledge and ability to do so without jeopardizing your personal safety.
- Evacuate the building/area.
- Identify persons with mobility related disabilities and provide assistance if possible.
- Leave ventilation systems operating.
- Ventilate the area.

## Caution - What Not to Do

- Do not use the phone in the area of the leak.
- Do not turn light switches on or off.
- Do not activate the fire alarm system.
- Do not turn electrical equipment on or off.
- Do not use elevators in the area.
- Do not return to the evacuated area until advised to do so by the Department of Public Safety.

### VII. Power Outage

#### Immediate Actions

- Remain calm.
- Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.
- Provide assistance to persons with mobility related disabilities. Notify the Department of Public Safety if persons with mobility related disabilities are in the area and may need to be relocated.
- Provide assistance to other individuals in your immediate area.
- Secure files, turn off computers, unplug electronic equipment, and lock windows and doors as you leave.
- Proceed cautiously to an area that has emergency lights.
- Do not light candles or other types of flames for lighting.

#### If Trapped in an Elevator

- Remain calm.
- Public Safety Officers and/or the FDNY will be dispatched to your location to assist you.

#### What to Report

- Report your location, name, and telephone number, and the location of the power outage.
- Report the extent of the power outage, if known.
- Report any persons with disabilities who are in the area and may need to be relocated.

#### Persons with Disabilities

- It is suggested that individuals who use wheelchairs or who have a mobility-related disability prepare for an emergency ahead of time by instructing coworkers or fellow students on how to assist in an emergency.
- **During an emergency evacuation due to a power outage, building elevators should not be used.** Contact the Department of Public Safety for assistance evacuating during a power outage.

## VIII. Bomb Threat/ Suspicious Package

### If You Observe a Suspicious Object or Potential Bomb

- Remain calm.
- Do not touch the object.
- Secure the immediate area around the object to prevent other persons from touching the object.
- Evacuate the area immediately.
- Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.

### If You Receive a Bomb Threat by Phone

- Remain calm.
- If your phone has caller ID, record the number displayed.
- Try to keep the caller on the line long enough to complete the Bomb Threat Checklist available on the next page. If a Bomb Threat Checklist is not available, try to obtain the following information:
  - A.) When is the bomb going to explode?
  - B.) Where is the bomb located?
  - C.) What does the bomb look like?
  - D.) What type of bomb is it?
  - E.) Why was the bomb placed?
- Try to record the exact words spoken by the caller
- Make note of the caller's voice, language, and any background noise.
- Call the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.

### If There is an Explosion

- Take cover under sturdy furniture, or leave the building if directed to do so by Public Safety staff.
- Stay away from windows. Do not light matches. Do not turn light switches on or off.
- Move well away from the site of the hazard (if known) to a safe location. Leave doors and windows open. **Use stairs; do not use elevators.**
- Call the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.

### If you Receive a Suspicious Package by Mail

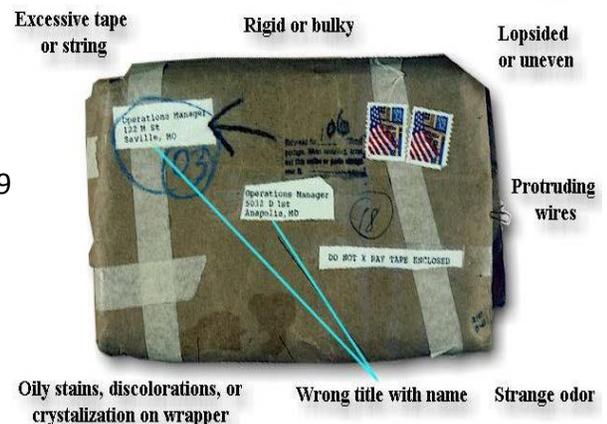

Stop immediately! Do not open items further. Do not move items or place items in water. Do not shake or empty contents.

Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.

Isolate the package, and evacuate the area.

Wash your hands with soap and water.

Meet responding Public Safety staff; provide them with specific info about the package, and names of any persons who came in contact with the package.

### Bomb Threat Checklist

Department of the Treasury  
Bureau of Alcohol, Tobacco & Firearms  
BOMB THREAT CHECKLIST

1. When is the bomb going to explode?
2. Where is the bomb right now?
3. What does the bomb look like?
4. What kind of bomb is it?
5. What will cause the bomb to explode?
6. Did you place the bomb?
7. Why?
8. What is address?
9. What is your name?

EXACT WORDING OF BOMB THREAT:

Sex of caller: \_\_\_\_\_ Race: \_\_\_\_\_  
 Age: \_\_\_\_\_ Length of call: \_\_\_\_\_

Your position: \_\_\_\_\_

Your telephone number: \_\_\_\_\_

Date checklist completed: \_\_\_\_\_

## IX. Hazardous Materials

### Emergency Procedures for Hazardous Substance Spills:

- Any spill of a hazardous substance must be reported immediately to the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979. The Department of Public Safety will immediately contact Environmental Health & Safety at (212) 305-6780 or campus phone extension 305-6780.
- Provide any information you may have as to the location and extent of the spill, and as to the chemicals involved or stored in the area.
- Stop the SOURCE of the spill if possible, but DO NOT attempt to clean up the spill yourself unless you are properly trained.
- Don't endanger yourself or others.
- Remove any victims from the area **ONLY** if it can be done safely, and evacuate the area.
- If chemicals come in contact with your skin, immediately flush the affected area with clean water for at least 15 minutes.
- Persons who may be contaminated by a spill/release are to:
  - A.) Seek medical attention immediately.
  - B.) Avoid contact with others.
  - C.) Alert responders/emergency personnel of the injury.
  - D.) Try to obtain the SDS for chemicals involved to provide to emergency responders.
- Aid victims if possible until emergency help arrives.
- Make yourself available to supply critical information.

### Emergency Procedures for Fumes/Vapors

- If the presence of harmful/irritating fumes is suspected, the affected area should be evacuated. Don't endanger yourself or others.
- Remove any victims from the area **ONLY** if it can be done safely, and evacuate the area.
- If possible, aid victims outside of affected area until emergency personnel arrive.
- Use a telephone away from the affected area and notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979. The Department of Public Safety will immediately contact Environmental Health & Safety at (212) 305-6780 or campus phone extension 305-6780.
- It may be possible to ventilate an affected area by opening windows and or activating exhaust fans, provided such an action is undertaken by trained personnel and does not exacerbate the situation or put personnel in harm's way while attempting to ventilate.
- Make yourself available to supply critical information.

## X. Severe Weather

### Severe Weather Preparedness

- The Department of Public Safety will initiate notifications when severe weather bulletins are issued for the immediate area.
- The safest place to be during severe thunderstorms and tornadoes is inside a secure structure, since most damage occurs as a result of broken glass and flying debris.

### Glossary of Terms

#### Tornadoes/Thunderstorm/Wind Watch

- Normal operations will continue.
- Employees should keep a close eye on changing weather conditions and be prepared to take action when necessary.

#### Tornado/Thunderstorm/Wind Warning

- A hazardous condition stated has been spotted or identified on the radar.
- When these conditions immediately threaten the campus, the Public Safety Department will make notifications (i.e. Text message, email, web page, etc.).

#### Blizzard Warning

- Sustained winds or frequent gusts to 35 miles per hour or greater and considerable amounts of falling or blowing snow (reducing visibility to less than a quarter mile) are expected to prevail for a period of three hours or longer.

#### Flood Warning

- Flooding is occurring, or will occur soon; if advised to evacuate, do so immediately.

#### Flash Flood Watch

- Flash flooding is possible. Be prepared to move to higher ground.

#### Flash Flood Warning

- A flash flood is occurring; seek higher ground on foot immediately.

**DO NOT LEAVE THE BUILDING OR INITIATE A BUILDING EVACUATION WHEN SEVERE WEATHER STRIKES.**

### **Tornado**

- **If inside:** go to a pre-designated shelter area such as a safe room, basement, storm cellar, or the lowest building level. If there is no basement, go to the center of an interior room on the lowest level (closet, interior hallway) away from corners, windows, doors, and outside walls. Put as many walls as possible between you and the outside. Get under a sturdy table and use your arms to protect your head and neck.
- Do not open windows.
- Call the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979 to report any injuries, or property damage.
- **If outside:** lie flat in a ditch or depression and cover your head with your hands.
- **If in a moving vehicle:** Stay in the car with the seat belt on. Put your head down below the windows; cover your head with your hands and a blanket, coat or other cushion.
- If your vehicle is hit by flying debris while you are driving, pull over and park.
- If you can safely get noticeably lower than the level of the roadway, leave your car and lie in that area, covering your head with your hands.
- Do not get under an overpass or bridge. You are safer in a low, flat location.
- Watch out for flying debris. Flying debris from tornadoes causes most fatalities and injuries.

### **Earthquake**

- **Indoors:** Get under sturdy desk or table and **HOLD ON**.
- Use a doorway for shelter only if it is in close proximity to you and if you know it is a strongly supported, loadbearing doorway.
- Stay away from glass, windows, light fixtures or anything else that could fall and injure you.
- Stay inside until shaking stops and it is safe to go back outside. **DO NOT** exit a building while it is shaking.
- **DO NOT** use elevators.
- **Outdoors:** **MOVE AWAY** from buildings, streetlights, and utility wires as most injuries occur as a result of falling debris.
- Stay there until shaking stops.
- If in a moving vehicle, stop as quickly as safety permits and stay in the vehicle. Avoid stopping under buildings, trees, overpasses, and utility wires.

### **Hurricane/Winter Weather Advisory/Snow**

- Check for **school closings** at the news sources, CU website, and on your email and voicemail.

## **XI. Civil Disturbance/Demonstration**

### **Campus Demonstrations**

- Most campus demonstrations such as marches, meetings, picketing or rallies will be peaceful and non-obstructive and should not be interfered with. An immediate notification should be made to the Columbia University Department of Public Safety for any of the below conditions:

- A) INTERFERENCE** with normal operations of the University.
- B) PREVENTION** of access to office, buildings, or other University facilities.
- C) THREAT** of physical harm to persons or damage to University facilities.

### **Peaceful, Non-Obstructive Demonstrations**

- Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979 with details and information.
- Do not interrupt or become involved with the participants.
- Efforts should be made to conduct University business as usual.

### **Non-Violent, Disruptive Demonstrations**

- Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979 with details and information.
- Do not interrupt or become involved with the participants.
- In the event that a demonstration blocks access to University facilities or interferes with the operation of the University the demonstrators will be asked to terminate the disruptive behavior pursuant to the Rules of University Conduct.
- The Department of Public Safety will monitor the situation to help ensure the safety of all. Any further intervention will be made in accordance with the Rules of University Conduct.

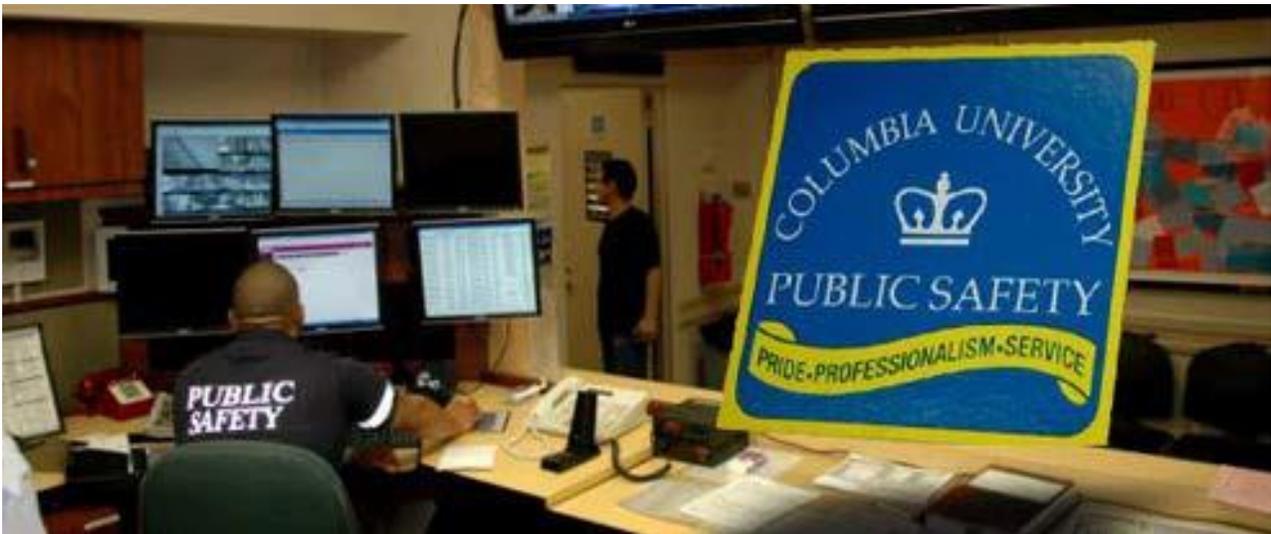

### **Violent, Disruptive, Demonstrations**

- In the event that a violent demonstration in which injury to persons or property occurs or appears imminent:
  - A)** Notify the Department of Public Safety at (212) 305-7979 or campus phone extension 305-7979.
  - B)** Do not interrupt or become involved with the participants.
  - C)** If indoors, close all doors and windows, lower blinds, stay in groups, await updates from the Department of Public Safety. If evacuation is necessary, follow instructions and announcements.
  - D)** If outdoors, immediately leave area, stay in groups, and seek shelter indoors.
- The Department of Public Safety in conjunction with the EMOT Communications team, will alert and update the CU community, students, staff and faculty on developments and conditions of the event via e-mail, text message, etc.

### Appendix II.

#### Emergency Plan Procedures – Classroom Poster

- The poster depicted below, sets forth a brief description of the actions taken during emergencies.

## EMERGENCY Procedures

Listed below are guidelines to follow during emergency incidents that may occur on the Columbia University Medical Center campus. Some incidents may require you to shelter in place while others may require evacuation of the facility.

### FIRE EMERGENCY (EVACUATE)

- If the building fire alarm is activated, be prepared to evacuate, be guided by Fire Safety, Public Safety and PA announcements.
- If the fire is confirmed, immediately evacuate the building.
- Proceed to the nearest exit. (NEVER use the elevator), closing doors as you exit.
- Continue down the stairs and exit the building.
- Do not re-enter building until authorized by emergency responders or Public Safety personnel.

#### IF UNABLE TO EVACUATE

- Call Public Safety at 212-305-7979. Give name, exact location inside the building and the nature of the condition.
- Close door and seal cracks to prevent smoke from entering.
- If possible, open window at top and bottom (never break the window).
- Stay at window breathing the fresh air as it enters.
- Signal for help.
- If smoke enters the window, close the window and stay as close to the floor as possible.

### SUSPICIOUS OBJECT

- Do not disturb or move the object.
- Warn others to leave the area and secure the area, if possible.
- Retreat to a safe distance – at least 300 feet.
- Do not use cellular phone or other electronic devices while in area.
- Call Public Safety at 212-305-7979. Give name, exact location inside the building and the nature of condition.

### HAZMAT SPILL

#### HAZARDOUS SUBSTANCE

#### INDOORS

- Call Public Safety at 212-305-7979. Give name, phone number, chemical name and exact location inside the building and the nature of the condition.
- Alert people in immediate area and evacuate.
- Confine the hazard by closing doors as you leave.
- Do not reoccupy space until authorized by emergency responders or public safety personnel.

#### OUTDOORS

- Call Public Safety at 212-305-7979. Give name, exact location, and the nature of the condition.
- Await further instructions from emergency responders.

### ACTIVE SHOOTER

- If event is outdoors, seek cover indoors. Call Public Safety at 212-305-7979. Give name, exact location and the nature of the condition.
- If event is indoors:
  - Lock and barricade doors and windows and close blinds.
  - Do not stand by windows or doors.
  - Call Public Safety at 212-305-7979. Give name, exact location inside the building and the nature of the condition.
  - Silence cell phones and turn off radios/computer monitors.
  - Keep out of sight and keep adequate cover.
  - Wait until emergency personnel verify that threat is over before leaving a place of safety.

### MEDICAL EMERGENCY

- Call Public Safety at 212-305-7979. Give name, exact location and the nature of the condition.
- If trained, provide appropriate first aid.
- Stay with individual(s) until medical assistance arrives.

### WEATHER EMERGENCY

- Monitor local TV, radio and the Columbia homepage.
- Move to lowest hallway/floor without windows.
- Await further instructions from emergency personnel.

### EARTHQUAKE

#### INDOORS

- Get under sturdy desk or table and HOLD ON.
- Use a doorway for shelter only if it is in close proximity to you and if you know it is a strongly supported, loadbearing doorway.
- Stay away from glass, windows, light fixtures or anything else that could fall and injure you.
- Stay inside until shaking stops and it is safe to go outside.
- Do not use elevators.

#### OUTDOORS

- Move away from buildings, streetlights, and utility wires.
- Stay there until shaking stops.
- If in moving vehicle, stop as quickly as safety permits and stay in vehicle.
- Avoid stopping under buildings, trees, overpasses, and utility wires.
